

KENNETH PROBECK

10 Wentworth Drive, Dix Hills, NY 11746 | (516)-713-2208 | kxp4109@g.rit.edu

Portfolio: kprobeck.github.io

Objective

To obtain a cooperative education, or paid internship, position as a game programmer or a software development programmer, available Fall 2017 and Spring 2018.

Projects

Programmed and designed User Interface, animations, and designed levels for "ColorCoded," an award-winning Puzzle game built for mobile devices using the Unity game engine. Created artwork, animations and all User Interface for the application, providing a friendly user experience. Currently working on the project with a team size of three, planning to release on the iOS and Android marketplaces in August 2017. "ColorCoded" was awarded at the RPI GameFest 2017 for Outstanding UI and Best Puzzle Game at the Microsoft Imagine Cup during Spring 2017.

Designed and balanced "inDICEsion," a table-top game where foam dice are thrown at boards to score points, or can be thrown to knock other players' dice out of the competition. This is a family-friendly game built for anywhere from 2 to 6 players. Game complete with a team size of five people, over the span of a six week process.
